

Project Executable Files

Date: 30 September 2026 **Team ID:** 6ab3e57da238dc999eb3d44d **Project Name:** EduGenie – AI-Powered Educational Assistant

Maximum Marks: 3 Marks

Submission Checklist

S.No	Item to Submit	Status	Evidence / Location
1	Complete source code	Yes	main.py, ai_service.py, five feature modules, templates/, static/
2	README / Setup Guide	Yes	README.md and docs/SETUP_GUIDE.md
3	requirements.txt	Yes	requirements.txt
4	Database schema / seed	N/A	No persistent database in current release.
5	.env.example / environment configuration	Partial	README/setup describe environment variables; supplied source expects .env.
6	Deployed application URL	N/A	No hosted URL supplied.
7	APK / executable binary	N/A	Web application; no mobile/desktop binary.
8	Dockerfile	N/A	Not supplied in current project.
9	Test files / results	Partial	Source-level validation and documentation; formal load-test report not supplied.
10	Demo video	N/A	No video supplied.

File / Folder Structure

- EduGenie/
- main.py
- ai_service.py
- qna.py
- explanation_module.py
- summary_module.py
- quiz_module.py
- learning_path.py
- requirements.txt
- templates/index.html
- static/app.js
- static/style.css
- docs/ (API, setup, overview, AI integration, team work, user guide, topic preparation)

Run Instructions

1. Install Python 3.10+.
2. Install dependencies with `pip install -r requirements.txt`.
3. Optionally configure `GEMINI_API_KEY` and `GEMINI_MODEL`.
4. Run `uvicorn main:app --reload`.
5. Open the local application URL.
6. Use `/docs` for the interactive API reference.

Known Limitations

No persistent learner accounts/history; no production authentication; no formal load-testing evidence; live AI depends on an external API key and network availability.
