SAYS	THINKS
"Explain this in simple words." "Can you summarize these notes?" "Give me questions to practice."	"I understand the basics but get stuck on difficult wording." "I need a clear order for learning." "I want quick feedback while studying."
DOES	FEELS
Searches the web, reads notes, asks classmates/teachers, practices with questions, revises before tests.	Curious but sometimes overwhelmed; wants clarity, speed, confidence and a structured next step.

Key insight: the user needs one low-friction workspace where AI output is understandable, actionable and easy to revisit.
